

# Acquired brain injury care

Ark Complex Care provides specialist support for people who have physical, behavioural and cognitive needs as a result of a brain injury. We'll give you the comfort, care and help you and your family need to rehabilitate you.

You will be looked after at home by a dedicated care manager and specialist nurse. They will help you think about what matters to you most: the people, things, places and principles you value. Together we will create a personal healthcare plan which is all about you and what you want to achieve. And we'll help you develop your life skills in the familiar surroundings of your own home.

“

We'll help you develop your life skills in the familiar surroundings of your own home.

”

## With our support, you can:

- stay in the comfort of your own home
- remain close to family and friends
- make your own decisions about your care
- live a more independent life
- fulfil your goals and ambitions
- have more confidence in yourself
- improve your emotional well-being
