

Dementia care

Living with dementia can be frustrating and frightening for both the person affected, and their family and friends. The dedicated, friendly team at Ark Complex Care provides support and respite in the familiar surroundings of your own home.

Our highly skilled, professional care workers are intensively trained in dementia awareness and understanding to give you the best possible care. They'll help you feel safe and secure in your own home by providing social and clinical support, while maintaining your dignity and sense of self.

With our support, you can:

- stay in the comfort of your own home
- remain close to family and friends
- make your own decisions about your care
- receive appropriate care as your needs change.
